The scare in Washington last night over the President's condition was a little premature. While he had unfavorable symptoms for a short time there was nothing alarming in his case. The night was passed very comfortably, and this morning he was easy and his pulse 95, and temperature 99. During the day he has made no complaint of increased pain. At two o'clock to-day he was sleeping and Dr. Bliss says he was better than on the evening previous.

Twenty Governors have responded favorably to Governor Foster's suggestion to appoint a day of thanksgiving for the recovery of President Garfield.

The President begins to feel as if he will certainly get well, and he wants to eat more and talk more, and in fact he imagines himself strong enough to run the administration.

One small bullet in the President has occasioned a dozen big bullet-ins from a crowd of physicians. If Guiteau had the bullet and there were no physicians to issue bullet-ins, it would be a good double-leaded joke.

Another fool has been made happy—Griscom fasted 45 days and is therefore a bigger man than Tanner. The same morbid desire for notoriety moved Guiteau to make the attempt to become as big a wretch as John Wilkes Booth.

If two Republican Senators are not elected from New York, Mr. Conkling and his friends will be held solely responsible for the failure to elect. Their love for the party and their hatred of bolting are now being brought to a test.

It begins to appear to a sober minded man and a close observer of the movements at Albany, that Mr. Conkling would rather run the risk of electing two Democrats to the Senate than make a sure thing of electing two sound Republicans.

The use of paper caps on toy pistols has become quite common of late among children, and in Baltimore eight have died so far this summer of lockjaw superinduced by the trifling burns caused by the discharge of the toy pistols. In other places, also, fatalities have followed the use of these pistols.

George R. Peck, formerly an attorney of Janesville, has done well by going to Kansas and growing up with the country. For some time he was United States marshal, and now he has a better thing—the attorneyship of the Atchison, Topeka and Santa Fe railway, at a handsome salary of $6,000 per annum.

Governor Foster, of Ohio, having suggested that a day of national thanksgiving for the recovery of the President be called by the Executives of other States, Governor Smith has telegraphed Foster that he would be pleased to act in harmony with other Governors in setting apart a day for thanksgiving and prayer.

Hon. S. T. Merrill, of Beloit, has been appointed one of the Vice Presidents of the International Cotton Exposition, to be held at Atlanta, Georgia, from the 5th of October till the 31st of December. This is an appointment which is well bestowed and will be deeply appreciated by all who know Mr. Merrill. This important exposition is the first "world's fair" ever projected in the South. While it derives its name—the cotton exposition—from the leading southern product, its scope is by no means confined to cotton and its analogous interests. The exhibition will include in the most satisfactory manner, all the prominent branches of industry—farm products, manufactures, works of art, and so on. The space allowed exhibitors will be free.

That strange piece of humanity, Thomas M. Nichol, who mysteriously sprang into notoriety in this State four years ago, is now at the head of a *banking* firm in New York. People who know Mr. Nichol will not be able to suppress a smile when his name is connected with a banking establishment. When this wanderer, and apostle of hard money, came to Wisconsin in the fall of 1877, he appeared far more faded than the last rose of summer. He looked as if he had no where to lay his head and had an empty purse. His advent occurred just at a time when hard money speakers were in demand. The campaign was nearly half gone and Governor Smith was fighting the battle well-nigh single handed and alone. Nichol could talk hard money from "early candle light" till the coming of day and then not exhaust the subject. He was put in the field at once, and after being dressed up at the expense of others, made a respectable appearance before an audience. He did some good work then, and since then, but had no regular abiding place. His home was wherever night found him. He finally got in company with Secretary Sherman, with Carl Schurz, with President Garfield, and other public men. He had no calling except that to tramp about and organize hard money leagues, and at this and campaign speaking he claims he never made more than his personal expenses. He was made commissioner of Indian affairs this spring, but held the office one month and quit it. Now that he has gone into the "banking business," in New York, standing at the head of the firm, seems almost like a joke. It is as ridiculous as the offer of Daniel Webster to pay the national debt when it was known that he was always out of money and constantly borrowing.

THE PRESIDENT.

Special to the Gazette.

OFFICIAL BULLETIN.

WASHINGTON, July 12, 8 a. m.—The unfavorable symptoms in the President's case, which made their appearance yesterday, have already disappeared. He spent a very comfortable night, and this morning his pulse is 95, and temperature 99. This would seem to indicate that the increase pulse and temperature of last evening was merely a temporary fluctuation, due, as surgeons, from his nervous system rather than from any permanent unfavorableness in his condition.

AT TWO O'CLOCK.

WASHINGTON, July 12, 2 P. M.—The physicians report the fever and restlessness of last night passed, and the President is again comfortable. He makes no complaint of increased pain. The anxiety of his wife and the doctors has subsided. Absolute quiet is now enforced.

Work has been suspended on the compressed air apparatus. At two o'clock, when the President fell asleep, his pulse and temperature were 100, and respiration 24.

UNPARALLELED HEAT.

Special to the Gazette.

CINCINNATI, Ohio, July 12—The unparalleled heat continues and the doctors are overwhelmed. The dead bodies from sunstroke lie for hours where they fall.

FROM ALBANY.

ALBANY, July 12.—The ballot to-day stood:

Conkling	32
Lapham	68
Potter	52
Scattering	3

For Platt's vacant seat:

Miller	70
Wheeler	21
Kernan	52
Scattering	12

LYNCHED.

Special to the Gazette.

LITTLE ROCK, July 12.—Henry Smith, a negro, was lynched to-day for outraging and murdering Lucy Webb. After being lynched his body was thrown into the river.

THE SICK ROOM.

The Patient and His Attendants—A Doctor Constantly at His Bedside Watching the Symptoms.

WASHINGTON, D. C., July 11.—Mr. Crump, who has been with the President nearly every hour since the shot was fired, to-day said: "Get well? Of course he will. He is going to get well without a doubt."

Mr. Crump is of the opinion that the President will take a drive in six weeks from now. The jaundice appearance which was first noticed last Friday, has all disappeared. The President's hands and face, which had become yellow, have resumed the color they had before they changed to that hue. He was given more nourishment to-day than heretofore. Great care is taken that nothing shall be administered that will destroy the tone of the stomach. To get that organ out of order, would be dangerous. One of the four attending physicians is constantly by the President's bedside. He is watched unceasingly by a medical attendant as well as by the nurse.

The three main points now aimed at in his treatment are: First, to keep the system up and not let it fall in any particular; second, to constantly watch the symptoms and act promptly as they make it advisable; and third, to see that the President is kept as comfortable and cheerful as possible. There is but little fear of blood-poisoning. It is thought by the physicians that the pus discharged from the wound is of such character now as to make it impossible that there should be blood poisoning.

The President will talk now and then, but only says a few words. Nothing like a conversation is allowed him. His principal talking is giving directions to Mr. Crump about the arrangements of his bed and other details of the sick-room.

THE ALBANY FIGHT.

Conkling Says He'll Never Retire—Grant and Wheeler Talked of.

ALBANY, New York, July 11.—A report put in circulation that ex-Senator Conkling has written a letter retiring from the canvass for the senatorship, is denied on excellent authority. It is said he will never retire.

NEW YORK, July 11.—The Post's Albany special says: "It is whispered about that the stalwarts are considering the feasibility of putting forth Grant and Wheeler for the vacancies."

Private telegrams to this city say that the Kingston Freeman, hitherto a strong Conkling paper at the home of Speaker Sharpe, will come out this afternoon advocating the election of Miller and Lapham in the interest of peace and harmony.

MALONE, N. Y., July 11.—In calling on Mr. Wheeler this morning, while he did not desire to be interviewed, he said he had only to say on the subject of the senatorial situation that his friends in Albany having assented to the calling of a caucus, and participated in its action, he advises them faithfully to abide by the action of the caucus.

NEW YORK, July 11—The Times says: "great hopes are entertained by the supporters of Lapham and Miller that those two candidates will be elected before the end of the week. The administration men are stronger than Saturday, while their opponents fear a break from Conkling, and they feel they will be powerless should one or two of their number change votes to prevent a general leaping of the fence. With a full house on Saturday, Miller was only seven votes short of an election. Should there be as large an attendance to-morrow as Saturday, it is probable, the margin will be reduced on the first ballot to five, and that if the second ballot if taken, there will be no difficulty in getting more than a sufficient number of votes to elect. The stalwarts laugh at the suggestion that any of their men would desert.

Warner Miller arrived this morning, and was at the Delavan this afternoon and to-night. His room was crowded with members, not only with Republicans of both factions, but with Democrats, who have flocked about him to offer congratulations, very much as if he was already elected. Should an election take place to-morrow or Wednesday or Thursday, it is expected a bill will be introduced to provide for special elections in the Congressional districts in which vacancies exist, and it will be progressed without opposition at least from the Republicans.

FOSTER'S SUGGESTION.

In Reference to Fixing a Day to be Observed as a Praise Day for the Recovery of the President.

COLUMBUS, Ohio, July 11.—Governor Foster has received telegrams from the governors of Indiana, Massachusetts, Kansas, Wisconsin, Tennessee, Arkansas, Illinois, Virginia, Alabama, Missouri, Georgia, Kentucky, Mississippi, New York, Nebraska, Vermont, Florida, New Jersey, West Virginia, and Wyoming Territory, approving the suggestion in reference to fixing a day to be observed as a praise day for the recovery of President Garfield. The Governor of Georgia was added to the committee on date today.

BLISS' THEORY.

WASHINGTON, July 11.—Dr. Bliss believes that it was the first shot fired by Guiteau that inflicted the wound. His theory is that Guiteau acted with coolness and deliberation in firing the first shot and that he was therefore more sure in his aim than when he fired the second time. The first shot having taken effect, Dr. Bliss' theory is that the President turned, and seeing his assassin in the act of again shooting, naturally threw up his right arm to shield his body, and while his arm was thrown forward it was grazed by the second shot. The manner in which the right coat sleeve was torn by ball gives color to this theory.

CITY DEBT.

WASHINGTON, July 11—Special Agent Porter, of the census office, has in preparation a bulletin which will appear in a few days, showing the purposes for which nearly $700,000,000 of city debt was created in the 311 cities of the country. This bulletin will be of unusual interest, as it not only shows the purposes for which the debt was incurred but the date of issue and the maturity and rates of interest. In short, in these tables will be presented a complete history of local debt as the amount of bonds in the debt, issued each year from 1860 will be shown, and the amount maturing each year until the next century dawns.

Among the other special bulletins is one of great interest in regard to cotton culture, by Professor Hilgard, which brings out the surprising fact that, under "free labor" in the South, the cotton crop in ten years has more than doubled. Also one from Professor Lovett, showing the kind of fuel used in different sections of the country, and one from Professor Pumpelley on the coal product of the country.

$400,000.

LONDON, July 11—Mr. Mapleson has sold to a syndicate his entire interest, good will, and lease in Her Majesty's theater, with the object of devoting his attention entirely in future to the United States. Mr. Mapleson receives the sum of £80,000, which is sufficient capital to enable him to open an energetic campaign next season in America. He has secured certain valuable concessions from the new company, among others the call on Covent Garden for all new operas, artists, scenery, and costumes which he may require. In fact, Covent Garden will be henceforth the recruiting house for his American season. Thus, after hopelessly struggling with Italian opera in London for so many years, he finds himself finally released from his difficulties, and hopes henceforth to give undivided attention to his operatic enterprises in America.

PATTI'S PURPOSE.

LONDON, July 11.—The celebrated singer Adelina Patti, together with M. Nicoline, the tenor, her secretary M. Frauchie, and attendants have secured passage on the Servia, and will sail for the United States October 22. She does not come for the purpose of making money, but to gratify a wish to visit the home of her childhood while her voice is at best. In proof of this it is stated on authority that she has refused European engagements which would net her a great deal more than the thirty concerts she will give in America possibly can. She has refused 20,000 francs per evening at Monticarlo, and at Madrid for the winter season 10,000 francs for thirty nights, with a splendid mansion valued at 300,000 francs, to be her own property, and deeded forever, so as to induce her visits.

THE DURAND TRAGEDY.

MADISON, July 11—Governor Smith was notified this morning of a tragedy in the lower part of Dunn county last night, in which Under Sheriff Milton Coleman, of Dunn county, and Deputy Sheriff Charles Coleman, of Pepin county, were shot by two desperadoes. The facts are: The officers named were in pursuit of two horse thieves, and in the eastern part of Dunn county had encountered the Williams brothers, of the James or Younger band of outlaws, and both officers were killed outright. The Governor to-day offered $500 reward for the apprehensions of the murderers and directed that the arms and equipments in possession of the local military company at Menominee belonging to the State be furnished to the local officers to aid in their capture. It is said there is great excitement in Dunn and St Croix counties over the event.

One of the murderers is heavy set, with black hair, dark, but blue eyes, and wears a mustache and goatee; weight, 160 pounds; height, 5 feet 6 inches. The other is not heavy, has auburn hair, brown eyes, but light complexion; light mustache and whiskers, and is about 25 years old.

Hamilton's Sympathy.

Hon. Frank Leland, United States Consul at Hamilton, has sent a dispatch, of which the following is a synopsis:

Hon. Jas. G. Blaine, Secretary of State:

Universal expressions of sorrow and grief throughout the city of Hamilton and throughout the entire Dominion of Canada is felt at the great national calamity of the attempted assassination of President Garfield. Prayers were offered in all the churches of this city for the President's life and speedy recovery yesterday, and the deepest expressions of sympathy and profound sorrow are heard from Canadians and Americans alike, and universal execration is manifested for the dastardly perpetrator of the foul crime. The touching sympathy of our Canadian neighbors in this hour of dark calamity shows the strong bonds of fraternity which exist between the two countries.

"Long John" Wentworth, ex-Mayor of Chicago, is entirely bald, except a little tuft of hair behind the ears, and on one occasion, when riding in the cars, he frequently took off his hat and scratched the back of of his ears, when a waggish backwoodsman shouted: "Stranger, drive 'em up into the clearing and you can catch 'em all in five minutes."

We believe that there is a large class of patent medicines whose ingredients are skillfully and conscientiously selected and compounded, and that they have been very useful in the domestic treatment of disease. We must come to this conclusion in precisely the same way that we come to the conclusion that a man is a skillful physician—by what they accomplish, and by the testimony of those who have used them. The reputation of a patent medicine is sustained by

exactly the same evidence that supports a skillful physician's reputation. * * * Many of these medicines came out of the regular practice, and were prepared and originally prescribed by the best physicians. * * * Very few of them, we believe, are humbugs and frauds in the consciousness or the intent of their makers. * * * The people, who are necessarily the judges, both of doctors and of medicines, say that these medicines are not all frauds, and if human testimony is good for anything, that fact is established.—*Scribner's Monthly.*

Section 10. Said board may employ a secretary, who shall be a competent and experienced book-keeper, and such assistant bookkeeper or clerks, as may be necessary. The secretary shall keep the books, records and accounts of the board, under such rules and regulations as the board may prescribe. He shall keep a clear, distinct and separate book account with all the several departments of the several institutions, including all items purchased or sold on account thereof, and the products thereof, with an estimate of the value of all such products, in such manner as to always show the relative cost and expenditure on account of each such department, and the income thereof, and in case the income or profits of any one department shall be made to contribute to the income or support of any other department of any such institution, the same shall be made to appear upon the books of such board.

Section 11. The salaries of the officers of the said institutions, not now fixed by law, shall be prescribed by the board, which in no case shall exceed twenty-five hundred dollars per annum, except that the several treasurers aforesaid shall receive no salary. The several stewards and treasurers aforesaid, before entering upon the discharge of their duties, shall execute sufficient bonds, to the state of Wisconsin, to be filed with the secretary of state, in such penal sum, and with such sureties, as the board may prescribe, conditioned for the faithful performance of their duties, and the faithful accounting for all moneys, or other property which may come to their hands respectively as such officers.

Section 12. The steward of the institution shall be the local business manager and purchasing agent of such institution, subject to the direction, and the rules and regulations of the board. Under the direction of the board, and within the limits of the monthly estimates made by the board, he shall purchase all materials and supplies required to be purchased for the institution to which he belongs. He shall have the immediate charge of all books, accounts, papers and records relating to the financial management of the institution to which he belongs, and shall keep detailed accounts of all receipts and expenditures pertaining to the same. He shall be responsible for the safe keeping and economical use of all stores and supplies purchased for such institution. For all articles purchased he shall require bills. On the receipt of goods purchased he shall carefully compare the articles received, with the bills, and shall see that they are correct, as to quality, quantity and amount charged therefor, and to every bill thus examined, he shall attach a certificate, setting forth the fact that he has made such examination, and that he has examined the extensions and footing, and that the bill is in all respects just and correct. All said bills shall be laid before the board at its next meeting for allowance, and no bill or account shall be audited by the board, or appropriation made therefor, which shall not first be so certified and presented. All materials and supplies shall be purchased at the lowest practicable price, and when economy of expenditure can be promoted thereby, such materials and supplies shall be purchased in quantity, or of the lowest bidder, in bulk for all of said institutions, by the steward of such institutions and under such regulations as the board may direct.

Section 13. The board once in each month, with the assistance of such of the officers of the several institutions as it may require, shall prepare an estimate for each institution of the expenditures necessary to be made during the month next ensuing, and such estimate shall be made out in detail and certified, and filed with the secretary of the board, and a duplicate with the steward of each institution respectively, and no member of said board, and no officers of either of said institutions shall incur any liability without such estimate being first made. Said board shall also fix a regular time, as often as once in each month, for the auditing, and also for the issue of its warrants for the payment of all accounts and charges against each of said institutions.

Section 14. No accounts for purchases made shall be paid until the same have been audited by the board, and an appropriation made therefor; and all such accounts, when so audited and appropriated, shall be paid by an order or warrant on the treasurer of the institution for which the same has been appropriated, signed by the secretary and by the president of the board; and stubs of all such orders or warrants issued shall be preserved in the office of the board. All accounts so paid shall be receipted by the payee, and filed in the office of the board, and no money for any purpose shall be drawn from the treasurer except upon such order or warrant of the board, and in the manner in this section prescribed; provided, however, that said board, in its discretion, may draw upon the treasurer of each institution each month, and deliver and charge to the steward, a sum not exceeding one hundred dollars in any one month, which sum may be used by said steward, under the direction of the board, for necessary and contingent expenditures not previously estimated; and all amounts so paid by the steward from said sum so drawn, shall be reported to the board at its ensuing meeting, with the purposes for which the same was expended, and when so reported and allowed by the board, the same shall be credited to the steward; provided further, that the aggregate amount due and payable monthly to the officers and employes of either institution may be drawn from the treasurer of said institution, on the order of said board, monthly, in one sum, and made payable to the steward of said institution, who shall disburse the same in amounts corresponding with the respective amounts entered on the monthly pay roll previously approved by the board, filing full receipts for all amounts so paid.

Section 15. Whenever any estimate has been made for either of said institutions as provided in section thirteen of this act, the secretary of state shall draw his warrant upon the state treasurer for the amount of money so estimated to be required for disbursement during the ensuing month in favor of the treasurer of each such institution, and such order shall be paid by such state treasurer to the treasurer of such institution.

Section 16. All moneys paid to any officer of either of said institutions for the benefit of any inmate thereof, shall be paid or transmitted to the steward of such institution, who shall enter the same upon the books of the institution, to the credit of the person or persons for whose benefit the same was designed, and report the same to the board at its next regular meeting; and all such moneys so paid shall be deposited with the treasurer of such institution, and paid out, only, under the direction and with the advice and approval of the superintendent or warden of such institution, for the benefit of the parties for whom the same was designed, in the same manner that other moneys are paid by such board. And all property contributed or donated for the benefit of any inmate of either of said institutions shall be received by the superintendent or warden, and the amount and estimated value thereof be reported to the board at the next regular meeting thereof, and the secretary shall keep a record of all such property and of the disposition made of the same.

Section 17. The superintendent of each hospital under the direction of the board, shall have immediate supervision of the interior administration of the hospital in which he is employed, and he shall be personally responsible for the sanitary condition, care, health and treatment of the inmates thereof. He shall cause to be kept, for the hospital, a daily record of each inmate. At as early a day in the month of June next as may be practicable, he shall report to the board the name, age and place of residence of each inmate, upon such day, together with a brief statement as to the special form of insanity and physical condition of each of said inmates, and such other facts of value relating thereto as may be known to him. He shall also state, in said report, the name and place of residence of the guardian of each inmate, or of the person or county chargeable for his or her support. And he shall thereafter, on the first Monday of each month, report to the board such information as the board may require, with: 1. Section 18. Each of the institutions herein committed to the charge of the said board, shall, by its proper officer, make monthly reports to such board, giving detailed and itemized accounts of all receipts and disbursements, and also showing the daily number of inmates, officers, teachers, servants and employes in each, and the wages paid to each such officer, teacher, servant or employe, and also an annual report on the first day of October in each year, giving a summarized statement of the management of each of said institutions, in every department, for the preceding fiscal year ending on the thirtieth day of September.

Section 19. The board may from time to time appoint for each institution a visiting committee of not more than three persons, to visit and inspect the interior management of one or all of said institutions; and such committee shall have access to all parts of either of said institutions, and to all the inmates thereof; it may visit, inquire into and examine as to the condition and management thereof, and shall make a full report in writing to the president of the board, of the result of such inquiry and examination. Each member of such committee shall be allowed his or her necessary and actual expenses in making such visit, and the same shall be paid as other bills against said institutions are paid. The governor shall also after each election of members of the legislature and before the first of December following, appoint a visiting committee of three; one from the members of the senate elect, and two from the members of the assembly elect, who shall visit each of the institutions above named, before the assembling of the legislature, who shall have the same powers, perform the same duties, and be paid the same compensation as is provided by the preceding terms of this section.

H. A. PATTERSON, P. M.

"Gwine Away."

"De Lake Sho' train am do one we is lookin' fur, boss, kase I'ze gwine to send de ole woman to Toledo. Poo' ole soul! she's ben cryin' all de mawnin', kase she's gwine away from me, an' to tell de truf, I can't keep de tear outer my own eyes long 'nuff to see 'cross the depot."

It was an old, old, colored man, stoop-shouldered, trembling with age. He was accompanied by his aged wife, who had on her Sunday best and carried a bundle in her hand. She was wiping her eyes with a handkerchief, and in lieu of something better he was using his coat-sleeve.

"Is your wife going away on a visit?"

"Bress you, no! We wouldn't be feelin' like chill'en if it war only a wisit. You see, sah, we's got so ole an' poo' dat we can't keep house nor airn a libin' any mo'. We's felt it comin' on fur a long time past; but I neber 'spected de day would come when we'd have to separate."

"Then she won't come back?"

"Dat's what ails us. You see, Ize got a son heah who will gib me a home, an' she's got a darter down in Toledo who will take keer of her. She's—she's gwine away dis mawnin', an' I 'spect I'll neber, neber sot eyes on her no mo'. 'Taint fur down dar, but we is poo' an' ole, an' Ize gwine to kiss her good-bye fur de las' time. Hold up yer face, Mary, till I kiss ye! You an' me has trabbled in de same path ri'sin' of sixty y'ars, an' now when we am grown ole an' poo', an am waitin' fur de call we has got to separate! Dar', dar', chile, don't take on so! Its sumthin' we can't help, an' if you sob dat way you'll broke de ole man right down. Dat's de train ober dar, an'—an'——

He put his arms around her, an tears fell on her cheek as he said:

"We slaved together, an' we has starved an' shibered an' met trouble wid de same speerit. Hush, chile—it's all fur de best! Maybe de Lawd—will bring us together agin. If—if He doan' do it, you'll meet me up dar' in Heaben. We kin trust de Lawd fur dat. If I git dar fust I'll wait fur you right at de gate, an' if you am fust taken I know you'll watch fur me."

She kissed him and clung to him like a child, and it was only when the train was ready to go that he disengaged her arms, kissed her once more, and led her to the gate with the words:

"I'll be prayin' de Lawd to be good to ye, an' I'll fink of ye ebery hour in the day. Keep down your sobs, chile—we can't be chill'en no more. Here you am—good-by—good-by."

She went away sobbing like a child, and he passed out of the depot with big tears in his eyes and a heart almost breaking with sorrow.

"I'll trust—I'll trust in de Lawd," he whispered, as he went his way. "Tell ye what, it's powerful sad on two old folkses like us to be all broke up an' separated like dis, but we couldn't do better. Bress her dear soul! but de poo' body was well nigh done fur wid grief when I turned away de las' time!"

Adulteration in Vienna.

They have in Vienna an organization for the preservation of the public health which watches closely the articles sold for food, and from time to time has samples chemically analyzed. Investigations of this character were conducted on an extensive scale during the past year. Of milk nine hundred and fifty specimens were analyzed. Most of it had been skimmed and diluted with water. Some had come from diseased cows, and some was thickened with borax, soda and soap. Butter was analyzed to the extent of two hundred and ten samples. All of it contained an excessive proportion of water, and much of it was adulterated with beef fat, lard or stearine. Lard, coming from America and Hungary, had borax and lime. Of eleven hundred specimens of Hungarian and Austrian wine, fifty-two were artificial concoction. Artificial coloring matter and excessive proportions of water were found in many. Pilsener beer contained soda, and Vienna beer glycerine. Of liqueurs, seventy-three had traces of arsenic or copper, beside injurious flavoring and perfuming ingredients. Ground coffee was mainly roasted grain, acorns and chicory. Even bread was badly adulterated.

BURNETT'S COCOAINE

Is Renowned as a Pure and Effective Hair Dressing in Every Quarter of the World.

For thirty years it has been a favorite with the people and a leader with the trade. The name "COCOAINE" has become a valuable property. Burnett & Co. have established their *sole* right to its use in several suits at law, thus protecting the public and themselves from imposition.

The superiority of BURNETT'S FLAVORING EXTRACTS consists in their perfect purity and great strength.

"Superfluous Branches."

To a pretty young girl Sydney Smith once said: "Do you ever reflect how you pass your life? If you live to be seventy-two, which I hope you may, your life is spent in the following manner: An hour a day is three years; this makes twenty-seven years sleeping, nine years dressing, nine years at table, six years playing with children, nine years walking, drawing, and visiting, six years shopping and three years quarreling." The terms of this enumeration would doubtless be changed for most of us, and candor must admit that we are sometimes less well employed. But at the best it is appalling to think how much of life must be spent in merely perfunctory employments, which do not enhance its value or our pleasure in it.

Knowing, then, what an immense subtraction must be made from the apparent sum of existence, it would seem the choice of reasonable mortals, anxious to make the most of the remainder, to cut down all extravagant and superflous demands upon it on the part of the meaner qualities. Conscience, one would say, should lock the door on Vanity, and forbid easy-going and evil-working Compliance the range of the premises. But that upright, though very one-sided, monitor gives herself no apparent concern about this offense of grand larceny, being too busy about some petty waste of substance or infraction of the ceremonial law.

From no class of persons, for example, is the sad and heart-felt cry of "no time" more general and more persistent than from the great host of married women—mothers, wives and housekeepers. They long for leisure, they tell us—for leisure which means rest, culture, companionship with husband, children and friends. They would fain study nature, art, politics, social science. But their vocation is a drag-net which sweeps up all opportunity, and to struggle against their lot is to breed discontent.

Yet every woman living has all the time there is. It is her use of it which makes her bondage or her freedom. And if these Slaves of the Ring would but measure carefully a single day's expenditure of the golden hours, they would almost certainly find that they have paid it away for naught. There is hardly a home in the keeping of well-to-do householders whose machinery might not be so simplified as to lift a heavy burden from the mistress. Suppose some reforming spirit should declare: "I will have a house which shall be my enlargement, not my prison. I am told that travelers in Japan are much struck with the airiness and roominess of moderate-sized apartments, resulting from the absence of cumbrous furniture. Each article, though always exquisitely finished, is light; the lounges are of some elastic woven material; the floors are bare, or covered with matting. The fastidious Japanese call our style of furnishing unclean. I, too, will have bare floors in my chambers, or if their shabby nakedness must be hid, it shall be only with matting. I will no longer make to myself idols of pillow-shams, lace pincushion covers, embroidered towels, petticoated dressing-tables and time-devouring draperies. Neither shall my parlor harbor a tyrannical carpet, but a meek mat, which can be shaken any day, and defies moths; nor furniture so fine that I myself must take care of it; nor tidies, footstools and sofa pillows, which are very Minotaurs for the destroying of precious minutes.

"In my living-room the books shall abide, and plants shall grow, and 'mother's rocking-chair' shall be the benevolent Court of Appeal for the children, and it shall be that plain, sunny, broad-bosomed room which Bess shall cry for on her first night at Vassar, and Tom long to see through all the fun and hard work of his student life.

"The dining-room shall rejoice in plated silver and plain china, that loss and breakage need not worry me. The kitchen shall be pleasant as sunshine, neatness and fit furnishings can make it. It shall be a storehouse of contrivances for making housework easy. For I will again save time and nerves by insuring cheerful service from the servants. The food shall be good, abundant, and well chosen. But I will have nothing for show, nor to placate Mrs. Grundy. Nor will I put the freshness of my day into a difficult *entree*, nor let my ambitions be crushed out beneath the rolling-pin. Nay, if this moderate scheme of existence be found still too exacting, it shall be reduced one-half. It may not be of much consequence that I should live. But surely it is of infinite moment that while I live my days should hold something more than fine upholstery, nursery jingles, pie crust, embroidery, and visiting-cards."

Who would be free, themselves must strike the blow. Courage, weary and baffled sisterhood! It is these useless uses of life which defeat you. The gardener's law is the motto to be hung on your walls, and carried in your hearts:

"Superfluous branches
We lop away, that bearing boughs may live."

—*Harper's Bazar.*

Home Club Association.

At last a co-operative scheme has, for a time at least, proved successful. What is known as the Hubert Home Club Association, in New York, has erected five buildings, and two more are under way. Eighty families live in them; each family being part owner of the house they live in. The novelty of this scheme is that practically the cooperators own the fee of their own apartments. These houses are located in the finest part of New York City, where rents would naturally be very high. It is claimed that with this ownership the families save one-half their rent. The co-operators can sell their stock just the same as other property, and the apartments are as transferable as single houses are. In other words, the purchaser secures a fine suite of apartments for his own, in a first-class location, for a sum far less than it would cost to buy a very poor house in an inferior neighborhood. It is a certain Dr. Hubert who invented this plan, and he has reason to congratulate himself on the success which has attended it so far.—*Demorest's Monthly.*

Mr. Raffenstein, Boston, Mass., writes: "Your Spring Blossom has cured me of dyspepsia of four (4) years standing. I have regained my normal appetite, and can sleep well, and feel like a new man. Price 50 cents, and trial bottles 10 cents. Sold by A. J. Roberts, and Sherer & Co.

OF THE

Throat, Lungs, Heart Stomach, Liver.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

DR. PRICE'S REPUTATION!

Has been acquired by candid, honest dealing and years of successful practice.

My practice, not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic Diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

BRIEFLETS.

—Full-faced moon.

—There's a scarcity of Manitoba.

—The Third ward reservoir is to be filled at 6 o'clock this evening.

—Mrs. John Schicker had a night blooming cereus in full bloom Sunday night.

—The work on the new Temple of Honor hall has been commenced by the carpenters and plasterers.

—The funeral services of the late Mrs. Thomas Mahon were held this afternoon, and were largely attended.

—The tight rope walker drew a big crowd last evening to watch his dizzy antics. He showed up very cleverly.

—Yesterday afternoon a little daughter of Wm. B. Stoddard, of Bluff street, Second ward, fell and broke her arm.

—The Mutual Improvement club is to hold its annual reception at All Souls church parlors, Tuesday evening, August 19.

—John Welch for assaulting John Hanahan was before the Municipal court to-day, and was released on payment of costs.

—The parish sociable will be held at the parlors of All Souls church, on Wednesday afternoon and evening. Tea served at six o'clock. All are cordially invited.

—In the Circuit court to day a decree of divorce was granted to Edson Williams, thus freeing him from Margaret Williams, who seems to prefer to live with another man.

—Rev. Jenk Ll Jones passed through the city to-day, and on being interviewed by those interested, consented to preach in All Soul's church, next Sunday morning. There will be many who will be glad to have this opportunity of hearing their old pastor.

—John Anderson was yesterday found guilty, by Judge Patten, of insulting two ladies on the street. The fine imposed was $45 and costs, making a total bill of $63, which is small enough, considering the aggravated nature of the case. John don't propose, however, to stand even that, and has taken an appeal.

—H. D. McKinney, Janesville, Wis., has purchased from J. I. Case, Racine, Wis., Senator Sprague, bay gelding, 2 years, by Gov. Sprague, dam Mila C. (2:26½) by Blue Bell. For Governor Sprague Mr. Case paid $27,500, for Mila C., $7,500. The Senator should prove a bonanza if there is anything in breeding. Price $1,000.—*Spirit of the Turf.*

—It is desired that steps shall be taken at once to prepare for having the Sunday schools of the city largely represented at the Assembly to be held at Lake Monona, near Madison, the first part of August. For that purpose a meeting of the Sunday school officers, teachers and workers is called for next Friday evening at 7:30 o'clock at the parlors of the Baptist church, and all interested are invited to be then and there present.

—Last evening there was a happy surprise party at the residence of H. C. Wells, in the town of Rock, the victim being his son, O. J. Wells, and the occasion being his reaching his twenty first birthday. About fifty young people participated in the joyful doings, an elegant and bountiful supper was served, and all the needfuls were had for a glad time. The young man thus honored was the recipient of a number of gifts from the relatives, among the gifts being a watch and chain.

THE WEATHER.

The thermometer at 6 o'clock last night stood at 90 degrees above; at 1 o'clock a. m. to-day at 73 degrees above; at 7 o'clock at 78 degrees above; and at 1 o'clock p. m. at 85 degrees above. Partly cloudy.

The indications to-day are, partly cloudy weather, occasional rain, winds mostly southerly, stationary or lower barometer, and higher temperature.

PROTECTING A PATENT.

The Beloit windmill company has won a victory as will be seen from the following, culled from the court proceedings, as given by the Chicago papers:

The Eclipse Windmill company, of Beloit, Wis., brought suit a few days ago in the United States circuit court here against May Brothers, of Galesburg, Ill., for infringement of a patent to L. H. Wheeler for a solid wheel windmill with a "hinged vane," a patent to N. H. Wheeler for "a weight of varying resistance," in combination with a hinged vane, and a patent to P. C. Perkins for the vane returning to its position by gravity. A motion for preliminary injunction was argued before Judge Blodgett on Saturday, Messrs. Hill & Dixon and Offield and Towle appearing for the complainants, and Messrs. Coburn & Thatcher for the defense. Judge Blodgett entered an order that an injunction should issue against the defendants unless they filed a bond to pay all damages to the complainants before Wednesday morning next. These are the foundation patents under which the leading solid wheel windmill manufacturers have obtained license to manufacture, and which were the origin of this popular form of windmill. This is regarded as a substantial victory for the Eclipse windmill company. The defendants afterward gave the bond required by the court.

THE COUNTY BOARD.

It Seeks Advice from the State Board of Charities and Reform—The Care of the Insane—The Tramp Question.

This morning, in accordance with the call issued, the County Board of Supervisors met in special session, all the members being present except Supervisors Fisher, Miller, Race and Sheldon. Mr. James Scott being authorized to represent Mr. Huguuin, who is ill.

Chairman Metcalf stated the object of the meeting to be the consideration of the care of the insane stating the facts in substance as follows:

There are at present 36 persons at the State Institution in Madison, properly chargeable to this county, and for which we are paying the State $1.50 per week for each person, making $54 per week, and of this number at least 27 are pronounced incurable. Under existing law we have the privilege of supporting our incurable insane at home, if we shall make suitable provisions for their care, and the State will pay the county $1.50 per week each, for the support of such persons.

If the county shall make no provisions for their care, they must continue to be supported at Madison, or elsewhere, at an expense to us of at least $2,000 per year, as we now have no room for any more at the county poor house. If it is determined to construct a building for the insane another question is as to whether the building should be constructed with reference to the accommodation of the insane belonging to the county only, or large enough to accommodate twenty or forty, who may be sent from other counties.

Another matter worthy of attention was whether the proper time had now come to dispose of the farm and county buildings at Johnstown, and purchase a suitable site at some convenient point where railroad facilities could be provided, such as might be had at or near Milton Junction, Clinton, or Footville.

The regular order of business was dispensed with, and this special topic discussed. There were present, Dr. A. O. Wright, A. E. Elmore, Mrs. Fairbanks and Dr. Vivan, all members of the State Board of Charities and Reform, and each of them addressed the Board concerning the needed care of the insane, and answered various questions propounded by inquiring supervisors.

Another theme of talk proved to be the tramp question. Dr. Wright spoke of the great number of tramps in Rock county during the past winter, and declared that the increase had been larger here than in any other county in the State, and that this county had gained the reputation of being the best county for tramps to come to. He advocated the establishment of a stone yard, or some system of steady labor, as that would prove a sure cure as it had in Dane county.

Adjournment was then taken until afternoon.

THE RAG BABY GAME.

Every show-day, and some which are not show-days, brings to Janesville one or more of those amusement caterers who set up a row of rag dolls, at which they sell three throws for a dime, and give a cigar for each doll knocked over. The many who have watched that game will be interested to learn that it formed one of the attractions at the recent fair held in the gardens of the Tuileries in Paris, for the benefit of the victims of the earthquake at Chio. In this, as in other games, the most prominent and popular actors and actresses took the management. A Paris correspondent gives the following account of how one of these actors managed the rag-baby business, so often seen here:

There was also that peculiarly funny and Frenchy amusement known as the "Massacre of the Innocents;" "Try your skill as you pass by, messieurs!" cries a shrill voice. You turn round and see just opposite you a long line of dolls, made somewhat like the "rag-babies" of our infancy. These are all stretched along on a wire, which runs through the body of each dolly, in such a manner that they can each be placed in an upright position, but are easily knocked over backward by a slight blow. The game consists in throwing small yarn or rubber balls at the dolls. You pay so many sous per shot—at the ordinary fairs in the environs of Paris it is only one or two sous usually—and if you knock over one or more you receive a prize for your skill.

The patron of this particular "massacre" is dressed in a colored shirt, pantaloons of enormous plaid, a blue beret, a rose-colored cravat upon which glistened a big turquois—false. He looks like a genuine "camelot," and yet on looking closer you recognize Germain, the comic actor of the Varieties. He cries, he yells; you can hear him from one end of the terrasse to the other. When the interest of the public in the bloody work of butchering the innocents appears to be waning, Germain goes to work at it himself. He takes up a dozen balls and demolishes a dozen dolls. Then he takes his position proudly behind his counter, and continues to cry "Massacre me all those folks there."

—Dr. A. Schlernitgauer, of Milstadt, Ill., and Emory Poppelton, of Cleveland, O., sons-in-law of Andrew Palmer, were welcome callers at the Gazette office to-day.

—A. M. Goddard, of McGregor, was in the city to-day, where he has friends among the craft. He has now quit the printing business, and is bound for Dakota, in search of health and wealth.

—The two young men who passed through Janesville Saturday afternoon, taking a water route from Madison to Chicago, of whom mention was made in the Gazette of that day, proved to be Mr. Thompson, of Madison, and Mr. Bromfield, of Chicago. They expect to be about three weeks on the trip.

JOHNSTOWN.

—Haying is prospering finely, clover all secured, and should the weather continue favorable a few days longer, timothy will be in barn or stack. Harvest is fast approaching with a fair prospect of good crops. Barley seldom if ever looked better. Wheat and oats look well at present, but should the excessive heat continue for any length of time, the crop may be seriously damaged. Corn is considerable behind that of ordinary seasons, but is making a very rapid growth, and may make a fair crop. The prospect for a good crop of potatoes never was better.

—Mrs. Jack, an old resident of this place, and well known to many, died July 4th and was buried on the 5th. The sad event was not wholly unexpected, as she had been quite feeble for some time past.

—A few able-bodied tramps, who are willing to earn their bread by the sweat of the brow, can now find employment in this locality.

—The cheese factory is in full blast, and is turning out as fine a quality of cheese as can be found anywhere. Mr. Drake is the captain of the vat, and he understands his business.

—Mr. Charles Keith returned last week from Waukesha, where he has been engaged as teacher in the Reform school.

—Tobacco buyers put in an appearance last week. Mr. Grant Wood sold his crop. We did not learn the exact figures paid per pound.

FOR

NERVOUS DEBILITY

SOLD IN A YEAR

AND SPERMATORRHŒA.

A valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions and Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles, Ejaculatory Ducts, Prostate Gland, and Urethra. The use of the Remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life; it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, etc., etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation. Practical observation enables us to positively guarantee that it will give satisfaction. During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in neat boxes, of three sizes. No. 1, (enough to last a month,) $3; No. 2, (sufficient to effect a permanent cure, unless in severe cases,) $5; No. 3, (lasting over three months, will stop emissions and restore vigor in the worst cases,) $7. Sent by mail, sealed, in plain wrappers. Full DIRECTIONS for using will accompany EACH BOX.

Send for Sealed Descriptive Pamphlet giving Anatomical Illustrations and Testimony, which will convince the most skeptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sold ONLY by
